Projects may include local roads and bridges essential to such projects. The program's goal is to address critical needs projects across the state to rehabilitate and improve the in-place facilities and in some cases provide new facilities at locations throughout the state. The program's focus is an emphasis on the public safety, economic growth, and stability of the state and its roads and bridges. More information and applications can be found at <https://www.dot.state.al.us/atrip2/>. **Applications are due by October 30, 2020.**
