RESOLUTION # 762
MPO AMENDING THE FY 2016-2019 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Calhoun Area Metropolitan Planning Organization (MPO) is the organization designated by the Governor of Alabama as being responsible, together with the State of Alabama, for implementing the applicable provisions of 23 USC 134 and 135 (amended by the FAST Act, Sections 1201 and 1202, December 2015); 42 USC 126 2000d-1, 7401; 23 CFR Parts 450 and 500; 40 CFR Parts 51 and 93; and

WHEREAS, federal regulations under the Moving Ahead for Progress in the 21st Century Act (MAP-21) and Fixing America’s Surface Transportation (FAST) Act include Performance Based Planning and Programming (PBPP),

WHEREAS, the Calhoun Area MPO, at the request of the Alabama Department of Transportation, proposes that the FY 2016-2019 Transportation Improvement Program be amended to add the following language:

Performance Measures

With the passage of the Moving Ahead for Progress in the 21st Century Act (MAP-21), and following with the Fixing America’s Transportation (FAST) Act in December of 2015, the United States Department of Transportation has elected to move towards a performance-based planning process. This process refers to the application of performance management principles to achieve desired outcomes for transportation facilities.

In Alabama, the performance based planning process manifests itself in several forms. 23 CFR Part 490 requires MPOs to develop performance targets related to safety, pavement condition, bridge condition, highway reliability, freight movement, traffic congestion, and emissions reduction. 49 CFR Part 625 requires the same for transit asset management. Separately, the FAST Act recommends that performance-based planning be worked into documents such as the Transportation Asset Management Plan (TAMP), Transit Asset Management Plan (TAM), Strategic Highway Safety Plan (SHSP), Highway Safety Improvement Program (HSIP), Statewide Freight Plan, Congestion Mitigation and Air Quality (CMAQ) Performance Plan, and the Congestion Management Plan.

23 CFR 450.326 mandates that a Metropolitan Planning Organization (MPO) include performance-based planning in its Transportation Improvement Program (TIP). More specifically, the TIP should include a description of each measure and target, a systems performance report, and the performance management agreement signed by each Metropolitan Planning Organization (MPO).

Systems Performance Report

The Systems Performance Report provides a measure of how the TIP supports the performance-based planning process. This report will evaluate the progress made towards the achievement of performance targets.

The MPO adopted safety performance targets on 21st day of June 2018 and transit performance targets on 21st day of June 2018. In lieu of developing their own targets, the MPO elected to support the state’s safety and transit targets as referenced in the table above. No other targets have been established to date by the MPO. The Alabama Department of Transportation (ALDOT) adopted the Statewide Freight Plan in November of 2017 and ALDOT’s Transportation Asset Management Plan (TAMP) is currently in draft form.

The MPO will support the above-mentioned targets and state plans through the Transportation Improvement Program. The MPO will address new targets as they are adopted by the State or developed by the MPO per the Alabama Performance Management Agreement. Projects not in the TIP are added by resolution, at a meeting of the MPO, and in accordance with agreements and bylaws that the MPO has in place with state and member governments. Such projects will be evaluated to determine alignment with the performance targets.

WHEREAS, the Calhoun Area MPO, at the request of the Alabama Department of Transportation, proposes that the Alabama Performance Management Agreement, upon execution by the Governor, be added to the FY 2016-2019 Transportation Improvement Program.

NOW THEREFORE, BE IT RESOLVED, by the Calhoun Area MPO, that the FY16-19 TIP be amended to change the allocations for the Calhoun County projects as indicated above.
Passed and adopted this 21st day of June 2018.
